About Lauren:

Lauren Lee Sarlya has been an animal lover her whole life; and animals were her best friends and stable relationships during childhood when the family relocated often. There was always 'communication' going on between Lauren and her dog and later, Lauren and her horse.

Decades of personal development work & training including clairvoyant program, meditation, healing, Reiki, Whole Foods, EFT, and spiritual life coaching have culminated in Lauren living in service to the animals thru animal communication.

It is the deep love of animals and their love for us humans, that she brings to her animal communication sessions.
